This suggests that a price rebound may lack the momentum derived from consistent buying pressure, potentially leading to a deeper pullback.

How to use it: If funding is highly positive and OI is rising into resistance, treat upside breaks with skepticism. This usually signals bull-trap risk. If funding is deeply negative and OI has just flushed below support, be cautious when shorting breakdowns. This often indicates bear-trap risk. Pair these reads with a higher-timeframe retest-and-hold and volume confirmation before increasing position size.

Argentina's anti-corruption unit cleared Milei of wrongdoing in June, but a congressional commission pushed forward with an investigation on Tuesday, according to *ámbito*. Davis, among others, is fighting a class-action lawsuit being led by crypto law firm Burwick Law in New York.

The Hi Ibiza digital art installation is part of a broader push to bring digital and NFT art into physical venues. Bright Moments opened an NFT gallery in Venice, California, in 2021, and Web3 NYC Gallery followed in 2022 with a Genesis NFT exhibition in New York.

This matters because markets don't move in straight lines. BNB's 6% daily gain and 21% weekly surge attract short-term traders looking for quick flips. Once momentum stalls—and it always stalls eventually—those traders rush for exits simultaneously, creating violent corrections that wipe out leveraged positions in minutes.

Chart patterns are shapes formed by price movements that help traders anticipate future market trends. These patterns fall into two main categories: reversal patterns, which signal that a current trend may change direction, and continuation patterns, which suggest the trend will likely resume after a brief pause. They stem from market psychology, where emotions like fear, greed and uncertainty drive collective trading behavior and create recognizable shapes on charts.
