Cointelegraph has approached SpaceX for comments on the reason behind the Bitcoin transfer.

The company's board of directors approved the plan, which will see it acquire up to \$5 million of the two assets in total over the next year, according to a company

announcement on Thursday.

This rush to buy protection is noticeably changing the market and has caused the price of bearish bets to become more expensive than bullish ones, Melville explained. This trend, which started with Bitcoin, has now extended to Ethereum, indicating that Ethereum investors are becoming increasingly cautious.

This technological progress has fueled the continued adoption of stablecoins, fiat-pegged digital tokens that can move across the internet without relying on traditional payment rails. The report cited \$9 trillion in stablecoin transactions over the past 12 months — an 87% increase from the previous year.
