“Fast forward a few years: Corporate chains will end up with the complex tech but without the added value for users, which is no central entity to control them. At that point, these chains will lose the focus from corporates.”

Back in February, Kaspersky had warned that malware was being distributed through GitHub repositories widely used by coders. If downloaded, it could hijack the victim's keyboard and replace wallet addresses with ones controlled by the attackers.

Investors piled back into Bitcoin ETFs and their Ethereum counterparts Tuesday, reversing days of outflows, although the fresh investments failed to give the two largest cryptocurrencies by market value a long-lasting bump.

The announcement followed the close of a \$27 million private investment in public equity (PIPE) backed by institutional DeFi and TradFi investors.

His post later prompted a response from Ethereum co-founder Vitalik Buterin, who made a point to acknowledge Polygon's achievements in the broader Ethereum community.

The launch also follows CEO Larry Fink's pivot on crypto, from describing Bitcoin as an "index of money laundering" in 2017 to placing crypto alongside gold in investors' portfolios.
