That state of affairs could now change imminently. Waller's plan would allow U.S. institutions focused on "payments innovation"—aka, crypto and other emerging financial technologies—to gain their own access to the Fed's services, as opposed to depending on third-party, master account-holding banks.

The company's current offerings include the Daily Target 2X Long MSTR ETF (MSTX) and Daily Target 2X Long HOOD (HOOX), which seek results that are two times the daily share price change of Strategy and Robinhood.

Prosecutors also revealed that the U.S. government has seized more than \$14 billion worth of BTC from Prince Holding, and is currently pursuing the largest forfeiture action in DOJ history.

Zeta Network Group's chief investment officer, Patrick Ngan, said in a statement shared with Decrypt that the balance-sheet allocation reinforces the group's "long-term financial position," adding that the move could enhance their financial resilience through "an instrument that combines Bitcoin's scarcity with sustainable yield."

"I think that most fiat currencies, especially those with large debts, will have problems being effective storeholds of wealth and will go down in value relative to hard currencies," he said, pointing to parallels between the coming years and two periods in the 20th century.
