The team promised that Ondo will do for securities what stablecoins have done for dollars, making the tokenized assets tradeable outside of typical market hours and available worldwide.

The innovation of the Ethereum platform lies in that it is not only a cryptocurrency but also a decentralized computing platform. Ethereum supports the development

and execution of smart contracts, providing a runtime environment for decentralized applications (DApps). The emergence of Ethereum has greatly expanded the application scope of blockchain technology, giving birth to numerous innovative projects. In recent years, the Ethereum network has also been continuously upgraded and improved, such as the launch of Ethereum 2.0, which aims to solve the problems of network congestion and high energy consumption and improve the scalability of the system.

Unlike a company's stock market cap, which is based on outstanding shares, the market cap of gold is a calculation of the total value of all the gold that has ever been mined; however, it is impossible to know the exact amount.

"We are also excited to add Trump Coin to our cryptocurrency plan," he added, "as we believe the coin's value should track the success of the Trump presidency, which so far has been impressive."
