“No one should go into a pissing match with Jack when it comes to funding open-source Bitcoin development,” Wertheimer said.

Named "bitcoinlibdbfix" and "bitcoinlib-dev," the malware had been masquerading as solutions to an issue that had caused error messages to appear during Bitcoin transfers.

A bull trap happens when the price pokes above resistance and then reverses, while a bear trap occurs when the price dips below support and quickly snaps back. These fake breakouts often result from forced liquidations and mean reversion, clearing out crowded positions.

"Traditional sportsbooks focus on entertainment-driven, event-specific wagering with defined odds and consumer protections; meanwhile, prediction markets operate as decentralized forecasting tools where liquidity and information efficiency determine prices," he added. "If effectively regulated, both models could ultimately complement each other."

In the near future, Emirates flyers will be able to snag first-class seats with digital dollars, no forex fuss. The UAE's luxury liner will work with Crypto.com to accept crypto. In Europe, AirBaltic has been accepting crypto since 2014 and has processed thousands of crypto transactions.

Defiance and other firms already offer a number two times leveraged ETFs that are geared toward short-term investors, asking them to speculate on the one-day direction of certain stocks, many of them in the technology sector.
