Comprehensive Guide to transfer from binance to uphold

This article discusses what crypto staking is, what has prevented greater institutional participation and how Grayscale has encouraged the institutionalization of crypto investment. It also highlights regulatory and market changes surrounding staking and explains how Grayscale's spot crypto ETPs deliver staking yields to investors. Finally, it outlines the risks associated with staking funds and shows how Grayscale's ETPs have shifted crypto from a price-tracking asset to an income-generating one.

Traders would consider this correction healthy, allowing the token to consolidate gains and work off overbought conditions, bringing RSI back to neutral 50-60
