He added that ETF flows could be a strong predictor of whether Bitcoin manages to escape a Red September—even if it did just see a Red August. A month (or any other period time) is considered red if an asset ends at a lower price than it started.

High-end brands are also joining in: Gucci and Ralph Lauren have continued to expand their crypto payment options at select flagship stores, particularly for their more exclusive collections.

The recent bond sell-off, however, has widened the gap between short- and long-term yields, steepening the yield curve. In other words, investors are demanding higher returns to lend money for longer periods.

Gold envy keeping crypto down

The technique targets a single qubit, the basic unit of information storage in quantum computing, with a precise signal, causing it to react. The process is then reversed, allowing the researchers to measure the “echo” or signal that bounces back, Google said.
