## Comprehensive Guide to will pi be on binance

Why these three? Each has strong brand recognition, decent liquidity and different strengths: BTC as the store-of-value, ETH with its smart contract ecosystem and XRP with fast settlement and cross-border payments. Together, they cover what businesses need: trust, functionality and speed.

Master accounts, possessed by all federally chartered banks, allow for direct payments and access to the Fed. For years, crypto-focused institutions have tried and failed to secure them— and thus gain the coveted ability to function as national banks.

Thomas previously led Saudi Arabia's multi-billion AI data center program as former president of AI Data centers at Saudi AI company Humain. Through his career, he created over \$12 billion worth of shareholder value across 19 ventures, according to the announcement.

High-end brands are also joining in: Gucci and Ralph Lauren have continued to expand their crypto payment options at select flagship stores, particularly for their more exclusive collections.

dropped 9.5% on Friday, retesting the \$3,700 level and triggering \$232 million in leveraged long liquidations within 48 hours. The unexpected correction came amid a broader risk-off move fueled by credit concerns after two US regional banks announced write-offs on bad loans.

That said, their X account has less than 900 followers and their Telegram group just over 1,000.
