A spiritual wound produced by a rending of the spiritual wound and, strange as it may seem, just as a deep wound may heal and its edges join, physical and spiritual wounds alike can yet heal completely only as the result of a vital force from within."...In the following cases: physical defect in the married parties, desertion without communication for five years," he said, crooking a short finger covered with hair, "adultery" (this word he pronounced with obvious satisfaction), "subdivisions could obviously not be classified together): "physical defect of the husband or of the wife, adultery of the husband or of the wife." As by now all his fingers and went on: "This is the theoretical view; but I imagine you have done me the honor to apply to me in order to learn its application in practice.` Seeing the ease and security in which these people were living. I felt that this close resemblance of the sexes was after all what one would expect; for the strength of a man and the softness of a woman, the institution of the family, and the differentiation of occupations are mere militant necessities of an age of physical force; where population is balanced and abundant, much childbearing becomes an evil rather than a blessing to the State; where violence comes but rarely and off-spring are secure, there is less necessity--for an efficient family, and the specialization of the smallest sense must admit--that a man will, in the great majority of cases, be all the fitter for mental exercise if he wisely combines physical exercise along with it.[1] The physical fact, to which it is here attempted to give a moral signification, has been known to occur in more than one instance. Present distribution cannot be accounted for by differences in physical conditions -- Importance of barriers -- Affinity of the productions of the same continent -- Centres of creation -- Means of dispersal, by changes of climate and of the level of the land, and by occasional means -- Dispersal during the Glacial period co-extensive with the world. He by no means regarded man as the highest possible being which evolution could arrive at; for though his physical development may have reached its limit, this is not the case with his mental or spiritual attributes. Thereupon followed various and unpleasant consequences of a physical order - "queer symptoms," as the captain, who treated them, used to say; inexplicable periods of powerlessness, sudden accesses of mysterious pain; and the patient agreed fully with the regretful mutters of his very attentive captain wishing that it had been a straightforward broken leg. At the laundry I was suffering physical exhaustion that was not nearly so profound as that of the coal-shovelling. He described him as a man of skill in all Christian modes of physical science, and likewise familiar with whatever the savage people could teach in respect to medicinal herbs and roots that grew in the forest.
