## Jlg 450aj series 2 specs

Dimensions COverall Height - Mast LoweredArticulation AngleHorizontal OutreachUp And Over HeightPlatform Dimension APlatform Dimension B Platform Platform Capacity - UnrestrictedPlatform Railing Height Dimensions COverall Height - Mast Lowered Platform FMax Platform HeightGMax Horizontal ReachPlatform Inner WidthPlatform Inner LengthMax Platform Weight CapacityPlatform Rotation Boost your productivity with the improved multifunction capability of the JLG 450AJ. Its new DuraTough hood design delivers more durability and ease of service, and its larger 550-lb. capacity means more efficient operations. The JLG 450AJ also includes a standard LED Motion/Amber Beacon with ClearSky Smart Fleet Connectivity Hardware.[Page 2](#)Get more flexibility at height with the JLG 450AJ HC3. With three working zones and enhanced capacity, up to three workers and tools can fit into the platform. An efficient zero calibration automatic load sensing system eliminates the need for external weights to calibrate the machine. Operators benefit from enhanced features, like an upgraded light panel that's more visible in the sun and a chassis tilt alarm that alerts when the machine is on a slope exceeding 5 degrees. The JLG 450AJ HC3 also includes a standard LED Motion/Amber Beacon with ClearSky Smart Fleet Connectivity Hardware.[Page 3](#)Download manuals (Parts, Operation, Service and Supplemental), schematics, and forms on Online Express. Visit Online Express[Page 4](#)Get more flexibility at height with the JLG 600AJ HC3. With three working zones and enhanced capacity, up to three workers and tools can fit into the platform. An efficient zero calibration automatic load sensing system eliminates the need for external weights to calibrate the machine. Operators benefit from enhanced features like an upgraded light panel that's more visible in the sun and a chassis tilt alarm that alerts when the machine is on a slope exceeding 5 degrees. The JLG 600AJ HC3 also includes a standard LED Motion/Amber Beacon with ClearSky Smart Fleet Connectivity Hardware.[Page 5](#)Get the versatility you need with the best reach envelope in the industry. The JLG 800AJ is equipped with Workstation in the Sky accessories, providing everything you need to get the job done. This boom lift also features the Advanced Design Electronics System that reduces costs by increasing fuel efficiency and lowering emissions. The JLG 800AJ also includes a standard LED Motion/Amber Beacon with ClearSky Smart Fleet Connectivity Hardware.[Page 6](#)Get more flexibility at height with the JLG 800AJ HC3. With three working zones and enhanced capacity, up to three workers and tools can fit into the platform. An efficient zero calibration automatic load sensing system eliminates the need for external weights to calibrate the machine. Operators benefit from enhanced features like an upgrade light panel that's more visible in the sun and a chassis tilt alarm that alerts when the machine is on a slope exceeding 5 degrees. The JLG 800AJ HC3 also includes a standard LED Motion/Amber Beacon with ClearSky Smart Fleet Connectivity Hardware.[Page 7](#)Elevate your work performance with the JLG 1250AJP. Designed for efficiency, this boom lift takes you from ground to 120 ft. in just 95 seconds. Strong 100,000-psi steel and a dual 1,000 lb. / 500 lb. capacity provides stability and power. And a fuel-efficient Tier 4 engine keeps operations cost-effective and environmentally friendly The JLG 1250AJP also includes a standard LED Motion/Amber Beacon with ClearSky Smart Fleet Connectivity Hardware.[Page 8](#)Lift more with the class-leading capacity of the JLG 1500AJP. The jib pivots vertically and horizontally for better access to elevated work sites. And with fast lift speeds, you'll spend more time working and less time positioning. No oversized load permit is needed; an over weight permit is required for highway transportation projects. The JLG 1500AJP is now available with the ClearSky telematics platform, so you can easily manage and maintain your fleet.[Page 9](#)Designed for durability, the JLG 340AJ features steel hoods and a cutting-edge, environmentally-friendly Tier 4 diesel engine, ensuring lower cost of ownership. Its industry-leading terrainability makes it ideal for general contractors, steel erectors, painters, stadium construction, and more.[Page 10](#)Boost your productivity with the improved multifunction capability of the JLG 450AJ. Its new DuraTough hood design delivers more durability and ease of service, and its larger 550-lb. capacity means more efficient operations. The JLG 450AJ also includes a standard LED Motion/Amber Beacon with ClearSky Smart Fleet Connectivity Hardware.
