

I'm not a bot

Are you OK? Physics Paper 2 steamrollered into town today and AQA students nearly broke our exam rating poll afterwards, with a huge 61% giving their exam a negative confidence rating. Chat on The Student Room covered everything from a heavyweight opening question all the way through to a torturous multiple choice section. So if you felt like you took a fall on this one, you've definitely got plenty of company. As the dust settles, we've picked out some of the top reactions posted by students after today's paper. Check them out below, or tap on the links for our exam chat and unofficial markschemes. Register Number: 04666380 (England and Wales), VAT No. 806 8067 22 Registered Office: Imperial House, 2nd Floor, 40-42 Queens Road, Brighton, East Sussex, BN1 3XB Full-time undergraduate student finance applications for 2025 to 2026 are now open! Apply now and have your funding in place for the start of your course. Postgraduate applications are expected to open by the end of April, and part-time applications by mid-May! You can: Apply online, it takes less than 30 minutes to complete. Apply using your preferred choice, you can change your uni/course details later if you need to! Find out what you need to know about student finance before you apply and visit our: Student toolkit Student timeline Currently a student and need help with a query or problem?Find answers to your questions on the GOV.UK page. New students 1. Set up a student finance account When you register you'll be given a unique Customer Reference Number and be asked to create a password and secret answer. You should keep these safe as you'll need them to log into your account to check the progress of your application and re-apply for student finance next year. 2. Fill in and submit your application The first time you apply you'll be asked for proof of identity. You can easily do this by giving us your valid UK passport details. If you don't have a UK passport, you may have to send us evidence. See section 3 to find out what to send. You will also need the following information to complete your application: course start date and end date bank account details National Insurance number If you want to apply for student finance that depends on your household income, we'll ask your parents or partner for their National Insurance number and their personal income details so we can check their income details with HMRC. When you apply for student finance you'll need to agree to our terms and conditions. 3. Submit any evidence we ask for We may contact you, or your parents/partner to ask for evidence to support your application. They can find out more information on how to provide evidence on Gov.uk. If you're under 25 and you've had no contact with your parents for over a year, or you've been in the care of a local authority since the age of 16, you might be able to apply as an independent student. Tuition fee only funding students If you qualify for the tuition fee only funding, application forms are available to download at www.gov.uk/student-finance-forms. You should fill in a paper application form and send it to Student Finance England at the following address: Student Finance Service Student Loans Company PO Box 89 Darlington County Durham United Kingdom DL1 9AZ Continuing students To re-apply for student finance, sign into your student finance account and apply online as soon as possible to top up some money in time for starting your course. Tuition fee only students should re-apply using the relevant paper form available to download at www.gov.uk/student-finance-form. Evidence Proof of identity UK nationals If you don't have a UK passport, you can upload a copy of your original UK birth or adoption certificate to your online account. EU Nationals EU Nationals with a valid status under the EU Settlement Scheme will be able to prove their Settled or Pre-Settled status using an EUSS Share Code. You can provide the share code on your application or upload a copy to your online account. For help providing the right share code, visit: www.gov.uk/view-prove-immigration-status You don't need to send evidence by post to prove your identity if you give us your EUSS share code. Non-UK and non-EU nationals If you're a non-UK national you can give us details from your valid identity document when you apply. We can accept details from one of the following: Non-UK passport National identity card Biometric residency card Biometric residency permit If you're an Irish citizen and you don't hold a UK passport, you need to send your original valid ROI passport as proof of identity. It's important to apply early and send us your evidence as soon as possible. We'll return your evidence as soon as we've checked it, so you don't need to worry about being without your original documents for long. Don't send your original documents to us if you're due to travel within 8 weeks as we can't guarantee they'll be sent back in time. Instead, you should send the evidence when you return from travelling. Proof of household income If you're applying for finance that depends on your household income, we'll ask your parents or partner to give us their National Insurance numbers and details of their personal income. We usually don't ask your parents or partner to provide evidence of their income once they've supported your application, we check their details with HMRC. We may contact your parents or partner to ask for evidence of their: marital status if they're separated or divorced income if they're living abroad or finalising their current year income assessment. They should only send evidence if we've asked for it, as sending evidence we haven't asked for will cause delay to you getting your money. Your parents or partner will need to give us financial details every year you apply for student finance. If their income is 15% lower than the previous tax year, they can submit an estimate of their financial details for the current tax year. Find out how to do this and to download a Current Year Income application form. Changing your details You must tell us about any change in your circumstances which might affect your student finance. The most common examples are: you've changed university or college you've changed your course (but stayed at the same university) you've left your course your name or contact details have changed Before your initial course start date, you can change your application online or by filling in a Change of Circumstances form, which you can download from your online account. After your course start date, you'll need to ask your university or college to tell us about any of the following changes: your tuition fee amount your course details your course intensity you repeat a year you leave higher education you suspend your studies If you don't tell us about a change to your circumstances, you might end up being overpaid. In this case, you might have to start repaying earlier and before your income is over the repayment threshold. Yeah? Nahhh. We really hope today's exam went OK for you. But if you did come out of that one feeling like you'd gone through a biology blender, well you're definitely not alone. Shortly after the exam, voting on The Student Room had 58% of AQA students giving it a negative confidence rating, with 59% of Edexcel students and 55% of OCR feeling the same way. It was a toughie. But, two more papers to go. You've got this. Meanwhile, scroll down to see how students reacted to today's paper. Or tap the links below to see what people are saying about A-level Biology on The Student Room.
